

Customer Meeting Date for Demo of iteration 4

December 7th

User Stories Implemented in Iteration 4

- Created change password functionality for admin
- Created different user roles and providing special privileges to TA role.
- Fixed a Bug. Even when the user was logged in, user was asked to login again
- Fixed a Bug. Student and professor could login at the same time.
- Removed the tinymce html code from the UI of questions manager and rendered the questions text properly in Questions Summary page
- Redesigned the database
